

# GABRIEL DEZA

@ gabrieldeza@tau.mail.ac.il

📍 Tel Aviv, Israel

in linkedin.com/in/gabrieldeza

🐙 github.com/GabrielDeza

## EDUCATION

### PhD @ Tel Aviv University

#### Industrial Engineering

📅 Jan 2023 – Present

📍 Tel Aviv University

- 3<sup>rd</sup> year PhD student under Professor Tal Raviv & Professor Michal Tzur

### MSc @ UC Berkeley

#### Industrial Engineering and Operations Research

📅 Aug 2021 – Aug 2022

📍 UC Berkeley

### BASc @ University of Toronto

#### Engineering Science, Major in Machine Learning

📅 Sept 2017 – May 2021

📍 University of Toronto

## EXPERIENCE

### Research @ IEOR

#### UC Berkeley

📅 May 2022 – Sept 2022

📍 Berkeley, CA

- Worked under Professor Candace Yano on food delivery pricing models.
- Using revenue management techniques to model customer, restaurants and drivers interactions to maximize profit.

### Research @ AutoLab w/ Google Robotics

#### UC Berkeley

📅 May 2021 – May 2022

📍 Berkeley, CA

- Worked under Professor Ken Goldberg and Google Robotics on autonomous t-shirt folding.
- Simulated and trained policies in softgym achieving close to human level performance.

### Research @ CleverHans Lab

#### University of Toronto

📅 May 2020 – May 2021

📍 Toronto, Canada

- Worked under Professor Nicolas Papernot on machine unlearning and robustness of financial trading systems.
- Developed ML formulations that facilitate machine unlearning requests effectively and tractably.

### Machine Learning Intern @ Salesforce

#### Salesforce

📅 Sept 2020 – Dec 2020

📍 Toronto, Canada

- Student intern at Salesforce's Sales team to help analyze historical conversation data between sales representatives and clients.
- Developed natural language processing models to find trends in customer services conversations.

### Research @ Technion

#### Technion - Israel Institute of Technology

📅 May 2019 – August 2019

📍 Haifa, Israel

- Worked under Professor Shmuel Onn on graph optimization algorithms.
- Developed dynamic programming formulations to tackle the sum of a subgraph vertex degrees, a known NP-Hard problem.

### Research @ Université Paris-Saclay

#### Université Paris-Saclay

📅 May 2018 – August 2018

📍 Paris, France

- Worked under Professor Yannis Manoussakis on topological graph algorithms.
- Implemented graph algorithms, LP and IP in python, Gurobi and CPLEX.

## PUBLICATIONS

- Learning to Fold Real Garments with One Arm: A Case Study in Cloud-Based Robotics Research, R. Hoque, K. Shivakumar, S. Aeron, G. Deza, A. Ganapathi, A. Wong, J. Lee, A. Zeng, V. Vanhoucke, & K. Goldberg, *Accepted to IROS 2022*
- Unrolling SGD: Understanding Factors Influencing Machine Unlearning, A. Thudi, G. Deza, V. Chandrasekaran & N. Papernot *Accepted to EURO S&P 2022*
- Interpretability in Safety Critical Financial Trading Systems, G. Deza, A. Travers, C. Rowat, & N. Papernot, *Senior Thesis, arXiv:2109.15112*
- Optimization over Degree Sequences of Graphs, G. Deza & S. Onn, *Discrete Applied Mathematics 296 (2021) 2-8*

## SKILLS

- Languages: Python, C, Matlab, Julia, SQL
- ML/OR Tools: Pytorch, TensorFlow, Gurobi, CPLEX

## AWARDS

- ISTRC Conference Grant 2024 for TSL Workshop 2024
- ISTRC Scholarship -2023/2024
- Shlomo Smetlizer Scholarship 2023 & 2024
- UC Berkeley IEOR Fellowship 2021 - 2022
- UC Berkeley Fellowship Nominee - 2021
- UofT ECE Studentship Award - 2020
- Exceptional Opportunity Award - 2019
- Exceptional Opportunity Award - 2018
- 1<sup>st</sup> Place, University of Toronto UTRA Hackathon - 2018
- Faculty of Applied Science and Engineering Admission Scholarship (3000\$) - 2017

## LANGUAGES

- Bilingual English and French
- Beginner Hebrew
